ENGINEERING GEOLOGY

Contents Volume 36 (1993–1994)

Research papers

Earthquake probability in engineering—Part 2: Earthquake recurrence and limitations of Gutenberg–Richter b-values for the engineering of critical structures. The Third Richard H. Jahns Distinguished Lecture in Engineering Geology
E.L. Krinitzsky 1

An example of a low-temperature-triggered landslide
M. Govi, A. Pasuto, S. Silvano and C. Siorpaes 53

Recent underground investigations of abandoned chalk mine workings beneath Norwich City, Norfolk
G.J. Smith and M.S. Rosenbaum 67

Characteristics of a multiple retrogressive failure in a coal mine in southwest Turkey
R. Ulusay and V. Doyuran 79

Statistical models for slope instability classification
S. Jade and S. Sarkar 91

Water behaviour in limestones as a function of pores structure: Application to frost resistance of some Lorraine limestones
M. Bellanger, F. Homand and J.M. Remy 99

Multi-cyclic influence on standard laboratory compaction of residual soils
P.O. Omotosho 109

Three-dimensional modeling of near-field ground motion with relation to fault geometry and driving force
H.-y. Loo and X.-l. Gao 117

Geotechnical conditions of the deltaic alluvial plains of Bangladesh and associated problems
M.A. Mollah 125

Technical note

Rainfall and slope failure in Hong Kong
S.W.C. Au 141

Book review

Desert Geomorphology, by R. Cook, A. Warren and A. Goudie — J.R. Keaton 149

Announcement 151

Research papers

The loess of north-central China: Geotechnical properties and their relation to slope stability
T.A. Dijkstra, C.D.F. Rogers, I.J. Smalley, E. Derbyshire, L.Y. Jin and M.X. Min 153

Geology of the Chinese nuclear test site near Lop Nor, Xinjiang Uygur Autonomous Region, China
J.R. Matzko 173

Ancient engineering geology projects in China; A canal system in Ganzu province and trenches along the Great Wall in Ningxia Hui Autonomous Region
R.E. Wallace, R.C. Bucknam and T.C. Hanks 183

Morphostructural evolution and related kinematics of rockfalls in Campania (southern Italy): A case study
P. Budetta and A. Santo 197

From plate tectonics to the design of the Dul Hasti hydroelectric project in Kashmir (India)
Th. Winter, J. Binquet, A. Szendroi, G. Colombet, R. Armijo and P. Tapponnier 211

The development of surface steps during mining subsidence: "Not due to fault reactivation"
L.J. Donnelly and D.J. Reddish 243

The Speeton Clay of North Yorkshire, England: An investigation of its geotechnical properties
F.G. Bell 257

Geotechnical study and slope design of a phosphorite mine
V.K. Singh and B.B. Dhar 267
Chemical stabilization of sabkha soils at high moisture contents
O.S.B. Al-Amoudi 279
The influence of rock strength and abrasive mineral content on the Cerchar Abrasive Index
S.I. AL-Ameen and M.D. Waller 293
A new chemical index of weathering for metamorphic silicate rocks in tropical regions: A study from Sri Lanka
U. de S. Jayawardena and E. Izawa 303

Book reviews
Stress Regimes in the Lithosphere, by Terry Engelder—N.J. Price 311
Applied Geophysics in Hydrogeological and Engineering Practice, edited by W.E. Kelly and S. Mares—M. Goldman 312
Piling, European and Worldwide Trends, edited by M.J. Sands—A.F. van Weele 314
Hydrogeology and Engineering Geology, by A.M. Galperin et al.—M. Pacheco 315
Engineering Geology, by F.G. Bell—A.W. Malone 316
Aggregates: Sand, Gravel and Crushed Rock Aggregates for Construction Purposes, edited by M.R. Smith and L. Collis—T.P. Crimes 317

Announcement 319
